

INTERNET PROPERTY BROKERS

Professional Brokerage Services for Internet Business Buyers & Sellers

Quick Facts:

A rare opportunity to own a powerful Google Authority site in the Website Design Niche!

Asking Price: \$168,000

Page Rank Value: 6

Google Authority Site?: Yes

Domain Age: 2.5 years

Avg. Monthly Visitors: 30,000

Keywords ranking in the top 10 of Google (organic): web design, website design, website design company, web design company, professional web design, joomla website design, joomla web design, and others!

Talking Points:

- Strong PR6 website with many PR5 inner pages
- Organically ranks in the top 10 in Google for multiple highly-competitive (expensive) keywords
- This is a well-built, turn-key website for sale at a fraction of its value
- Averages 30,000 visitors/month with absolutely no PPC
- Using strictly PPC to obtain this amount of relevant traffic would cost over \$1 million / year!
- Currently used as the corporate site for the owner's web design firm, but can be transitioned into an affiliate site, a lead generation site, or be used by an existing web design firm who is looking to dramatically improve their online presence and traffic.
- Owner is exiting the web design business and is offering this website at a huge discount for a quick sale (due to other business ventures).
- Escrow service will be used in order to ensure a safe and fair transaction for both buyer and seller.
